

What to expect for a new racer

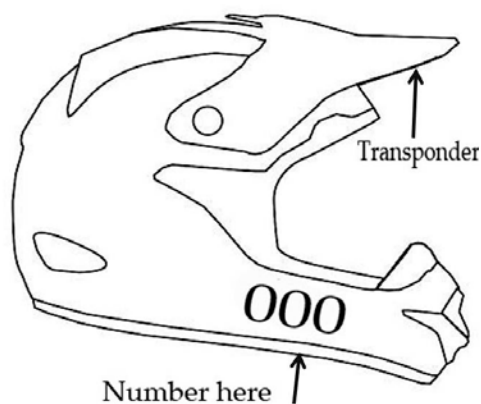

1. Go ahead and register online so it cuts down on signup time. Even if your number isn't available this will get you a temporary number and will cut down from having to enter you into the computer.

<http://www.moto-tally.com/SECCA/SeriesRegistration.aspx>

<http://www.moto-tally.com/SECCA/Kids/SeriesRegistration.aspx>

2. Get to the race a little earlier the first time to give yourself time to park and get things sorted. Find the sign up tent (normally close to the podium banner) and get signed up. For someone racing in the morning I would suggest being signed up by 8:15 for your first race. The 50's will start at 8:45. Youth and Girls will race about 9:30 once the younger kids are finished. For an adult I would suggest to arrive around 9:00 – 9:30 a.m. The awards will be given out at the adults riders meeting at 11:00 a.m.
3. When you sign up be sure to get your number and transponder. Be sure to place it like the picture below.

Transponder goes under visor . Please make sure sticker is in correct location

4. Walk over to the start and look over it and scope out the scoring area.
5. The riders meeting will be before the start at the podium. Be sure to listen to find out any info you haven't heard already.
6. Each row takes off 30 seconds apart. You must shut your bike off before each row takes off. The starter will place the flag on the ground meaning 10 seconds until the start. When the flag rises you may start your bike. When being overtaken by a faster rider you may hear them yell. They are letting you know they want by. When being lapped stay to one side of the trail and the faster rider will get by.
7. A moto will last approximately 1 hour for the race leaders. There will be about a 1 hour break from when the winner finishes to the start of moto2. Listen for the Air Horn / Siren for the 15 min warning.
8. Moto results are combined for your overall finish. Results will be posted for a 15 min protest period before awards are given out.

Be familiar with the arrows marking the trail. See below:

Straight

Slight Right

Slight Left

Hard Left

Hard Right

Right turn coming up.
Slow down

Left turn coming up.
Slow down

Wrong way. You missed a turn.

Be caution.
i.e. downhill,
ditch, etc.
